RESEARCH EXPERIENCE

“A phase 3, parallel group, randomized, double-blind, placebo controlled, multi-center trial to investigate the efficacy, tolerability and safety of XXXXX sustained release in subjects with overactive bladder syndrome.” 2004

“A placebo controlled study evaluation the safety and efficacy of Oxybutynin Chloride 3 mg and 5 mg in women with overactive bladder.” 2004

“A phase III, multi-national, randomized, double-blind, parallel group, placebo controlled, 24 week study to evaluate the efficacy and safety of XXXXX in women with low libido who have undergone hysterectomy and bilateral oophorectomy on concurrent estrogen replacement therapy.” 2003

“A double-blind, placebo controlled study of urinary frequency and urgency using XXXXX, 20 mg tablets twice daily for 12 weeks followed by a 6 month open label treatment phase in patients with overactive bladder.” 2003

“A placebo controlled, double-blind, randomized, parallel study of the efficacy and safety of XXXXX in the treatment of rapid ejaculation.” 2003

“An open label study of the long-term safety of XXXXX in the treatment of rapid ejaculation.” 2003

“A randomized, double-blind, parallel group, placebo controlled study evaluation the efficacy, safety, and reliability of XXXXX administered for 12 weeks compared to placebo in subjects with erectile dysfunction and a demonstrated successful first response to XXXXX.” 2003

“A phase III, randomized, double-blind, parallel group, placebo controlled 6 month study to evaluate the efficacy and safety of XXXXX in naturally menopausal women with low libido on concurrent oral hormone replacement therapy.” 2002

“A 6-week, double blind, placebo controlled, randomized, parallel group, multi-center, multi-dose, study of the efficacy and safety of XXXXX in patients with overactive bladder symptoms of increased urinary frequency, urgency, and urge incontinence.” 2002

“A double-blind, placebo controlled, randomized study to evaluate the effect of XXXXX on nocturia in patients with symptoms of overactive bladder.” 2002

“A randomized, double-blind, parallel group, multi-center study to investigate the time to onset the action of 20 mg of XXXXX to placebo in males with erectile dysfunction. At home onset of action study.” 2002

Extension study of “A randomized, placebo controlled, double-blind, parallel design, phase 3 trial of the efficacy and safety of XXXXX in male patients with mild to moderate erectile dysfunction.” 2002

“Efficacy and safety of XXXXX compared with placebo in subjects with stress urinary incontinence.” 2001

“Double-blind, placebo controlled study of sustained release XXXXX in subjects with symptoms of overactive bladder of urgency, frequency, and urinary incontinence.” 2001

“A phase III, double-blind, randomized, parallel, study evaluating the efficacy and safety of XXXXX sublingual (2 and 3 mg) in the treatment of male erectile dysfunction.” 2001

“A randomized, placebo controlled, double-blind, parallel design, phase 3 trial of the efficacy and safety of XXXXX in male patients with mid to moderate erectile dysfunction.” 2001

“A 52 week extension study to evaluate the long-term safety of XXXXX in subjects with overactive bladder.” 2001

“A 12 week safety and efficacy study of oral XXXXX versus placebo in subjects with overactive bladder.” 2000

“A randomized, double-blind, placebo controlled, parallel group study of the efficacy and safety of XXXXX in the treatment and modification of progression of benign prostatic hyperplasia.” 2000

“A phase 3 at home study evaluating the efficacy and safety of escalation doses of XXXXX in the treatment of patients with erectile dysfunction.” 1999

“Quality of life in patients treated with Tolterodine (Detrol).” 1999
